**Module 2**: The Second module is the movie booking module

**Welcome screen:** Next, the user will be redirected to the home screen, where it has three options, a list of movies, a profile and logout.

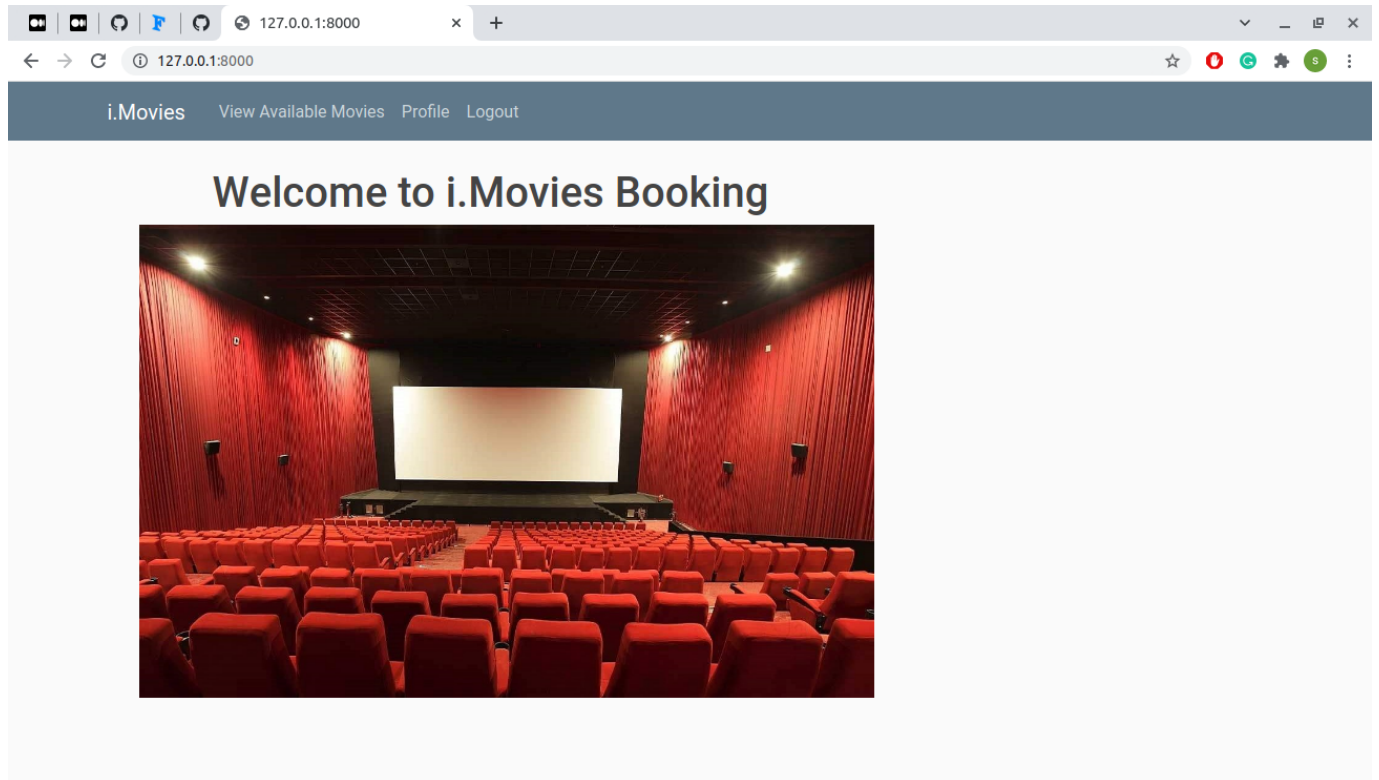

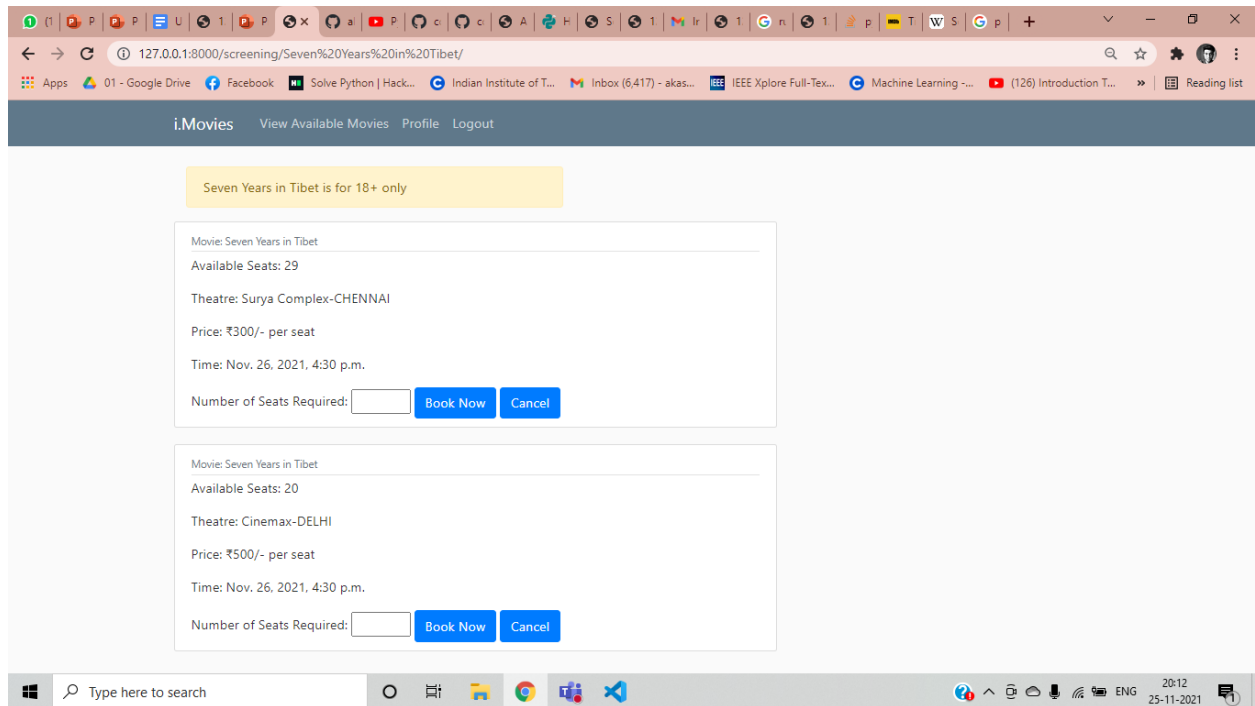

**Movie List page**: Users should select the list of movies option to see the movies. Information about movies with their certification, duration and short plot.
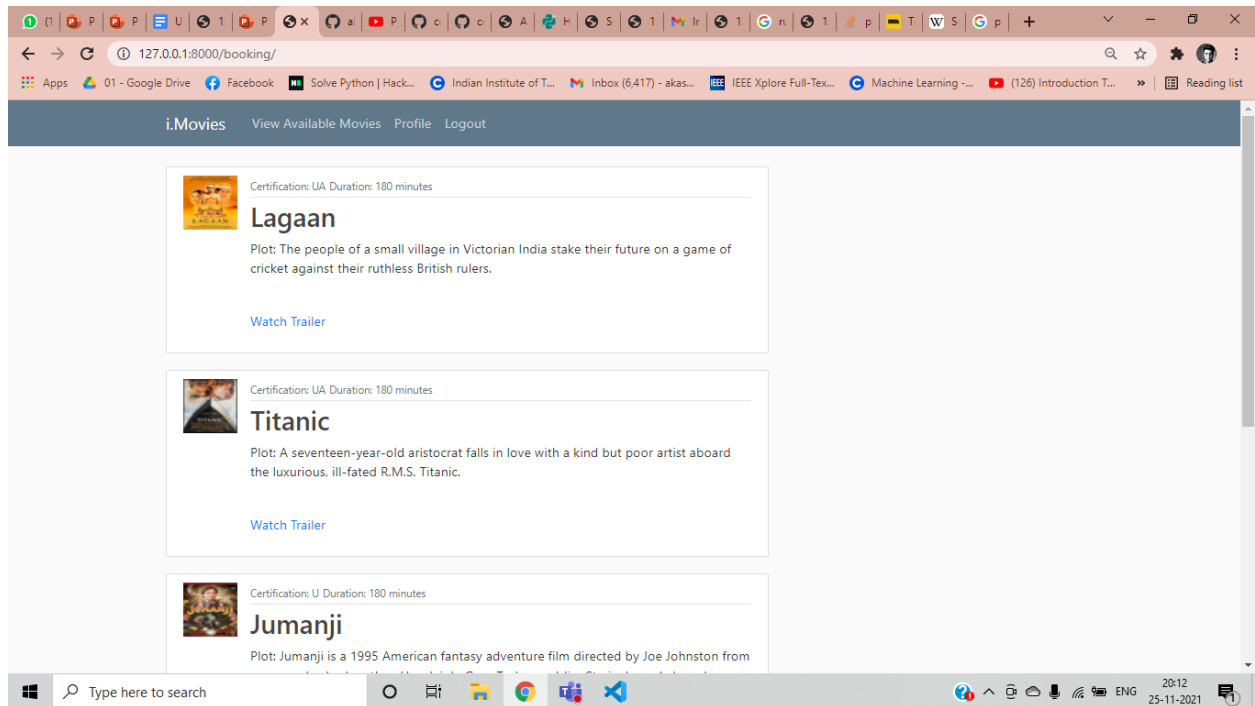

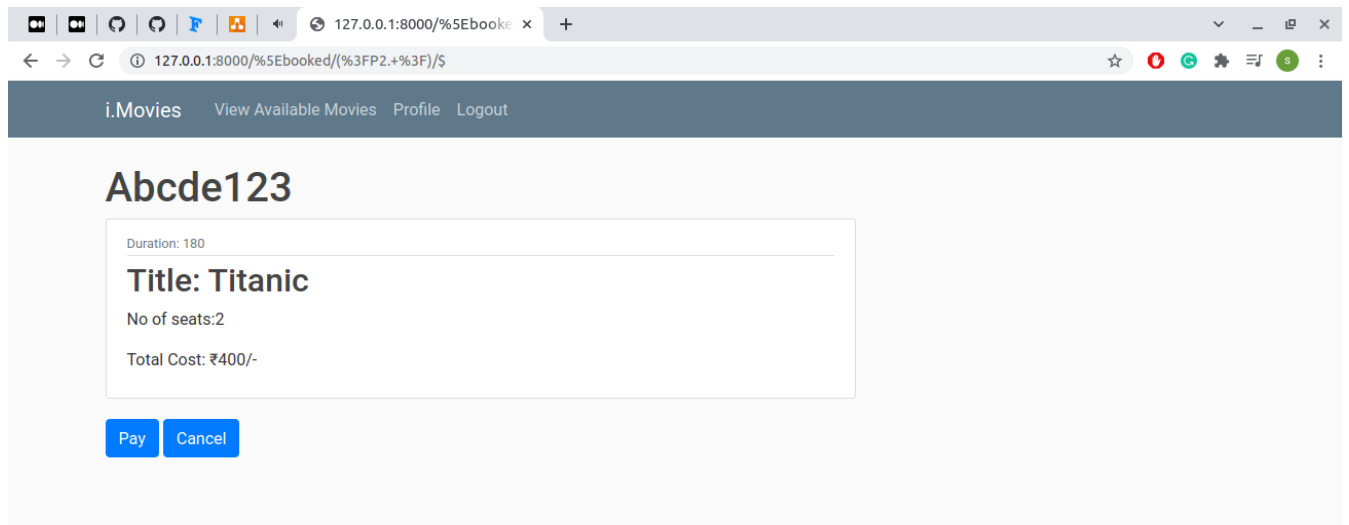

**Screening list page:** After the user selects a particular movie, they can choose the theatre, the number of seats required and book it.
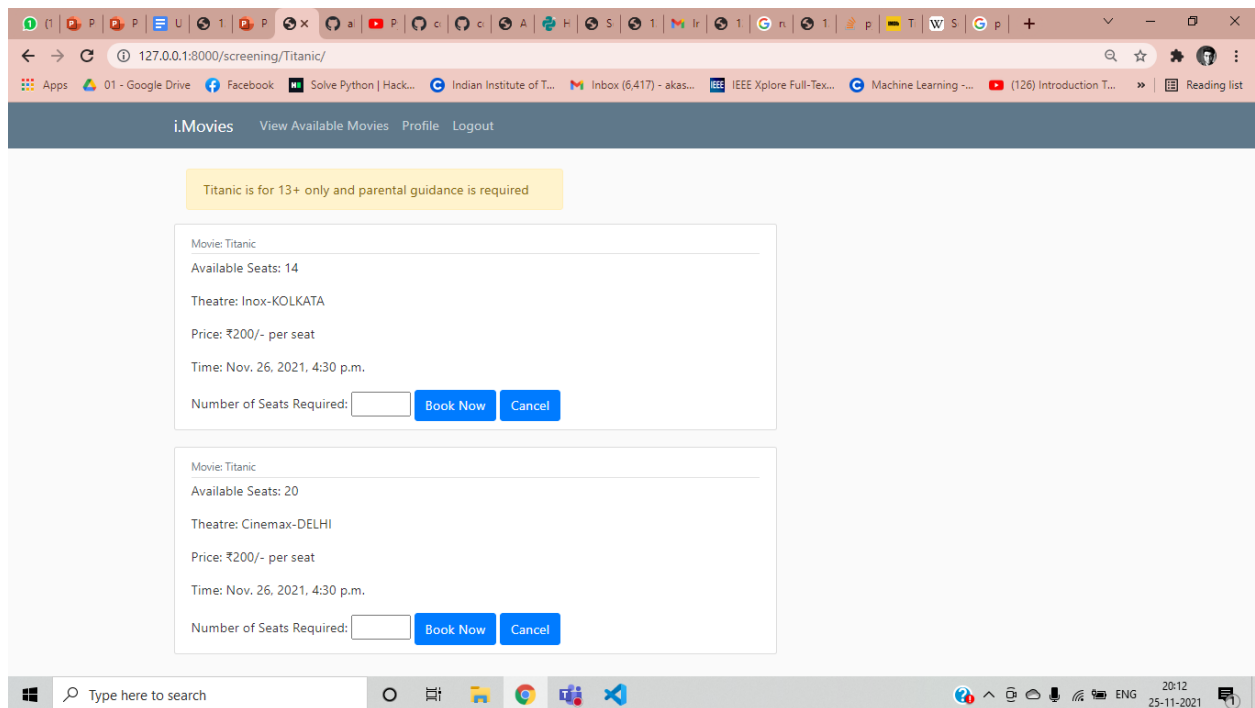

**Payment Page**: Then the user will be directed to the payment page, where the user can see the summary of tickets with the number of seats booked and total cost. The user should click the Pay button to confirm.

## Module 3: The Final module is the Booking confirmation module

**Payment confirmation page:** Once the payment is done, the user will get the pop up of successful payment and details of the corresponding booking will be mailed to the registered email id.

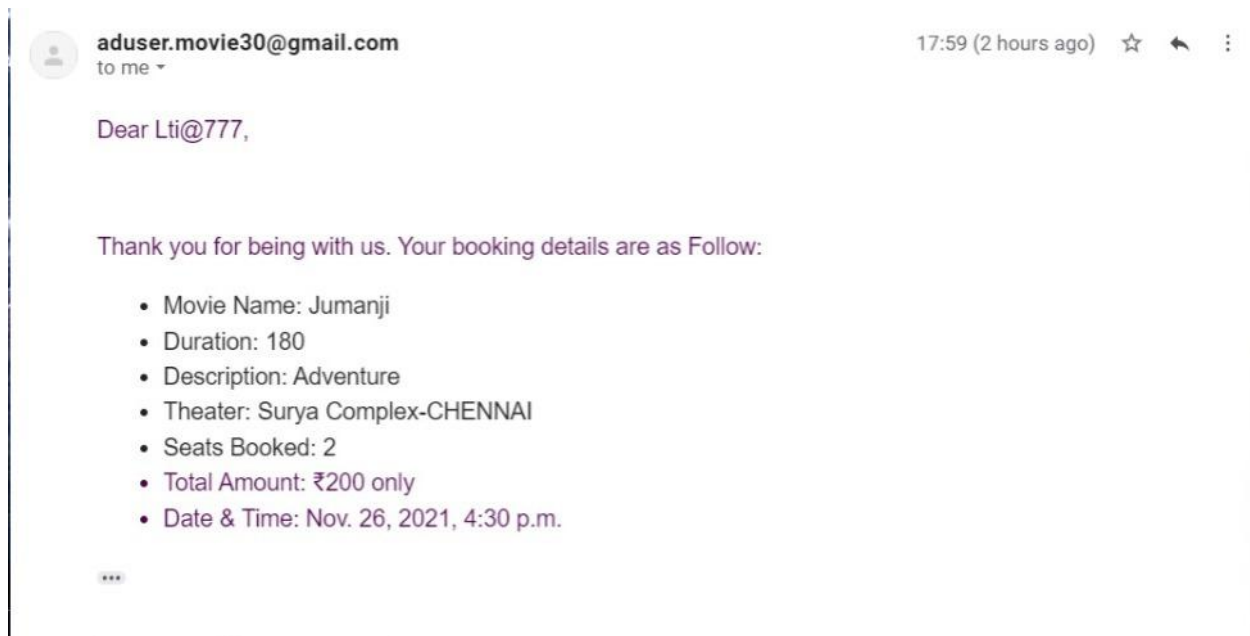

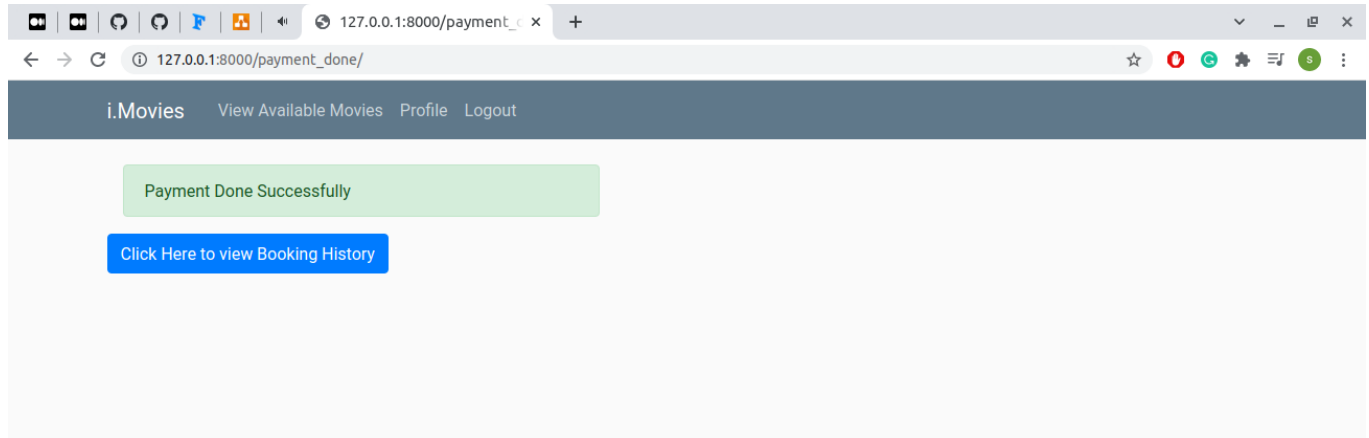

**Cancellation Page**: If the user wants to cancel a few or all tickets, they can do it by going to the profile and confirming the cancellation.

Duration: 180 Duration: 180
